Education

Bachelor of Engineering in
K Ramakrishnan College of Technology
2023-2027
Samayapuram, Tiruchirappalli

Skills

Communication
Problem-solving
Collaboration
Adaptability
Organization
Creativity
Empathy

Certificates

Introduction to MongoDB – MongoDB University
Data Science Using Python – Brain O Vision
ChatGPT & AI Tools Workshop – be10X
Python Fundamentals – Great Learning
CSS Basics – HackerRank

Language

English
Japanese

WORK EXPERIENCE

UI/UX Design Intern   *Remote*
SkillCraft I Jan 2025 – Mar 2025

- Homepage redesign for improved hierarchy and visual clarity. Dark mode theme integration for mobile news applications. E-commerce checkout flow optimization to reduce friction. User journey mapping and pain point analysis for fitness apps.

Cybersecurity Intern   *Remote*
Adaovi I May 2024 – Jul 2024

- Developed a Password Strength Checker with real-time feedback. Conducted Ethical Keylogger simulations for security demonstrations. Gained hands-on experience in penetration testing fundamentals and password security audits and more.

Web Development Intern   *Remote*
Prodigy InfoTech I Jan 2024 – Mar 2024

- Built a Weather Web App using REST APIs and responsive design. Created utility tools including Stopwatch and Tic-Tac-Toe with dynamic DOM. Focused on frontend-backend integration to ensure cross-platform compatibility.

ACHIEVEMENTS & HONORS

- Patent Holder (2024): Android TV Using Remote IR Sensor
- Best Performance Award – OASYS IT Hackathon
- First Prize – Extempore Speech, National Science Day (KRCT)
- Second Prize – Ramanujar Life , Math Day (KRCT)
- Second Prize – Trash to Treasure Competition, Math Week (KRCT)

ACHIEVEMENTS & HONORS

- Programming Languages – Python, Java, C/C++, JavaScript.
- Full-Stack Web Development – MERN stack, REST APIs.
- AI & Machine Learning – NLP, Text Analysis, GenAI Tools.
- UI/UX & XR Development – Figma, Canva, Tailwind CSS, Unity, Blender.
